

Unfortunately these results have been delayed because many racers skied around the timing line after their classic lap(s). As a result, no end-of-classic time was captured by the timing equipment for these skiers.

This problem was caused by ambiguities in the stadium layout, and by the fact that many racers did not understand that they needed to cross the timing line (ie the finish line) before transitioning from classic to skate. Both of these concerns will be addressed in the future.

After hours of video review, fairly accurate end of classic times were obtained for 15 racers.

Unfortunately, 18 U14 racers bypassed the timing line before the video camera was operating. For these skiers, only a finish time (ie end-of-skate time) is available.

Because the timing crew at the finish did such an excellent job, we are VERY confident that the skiathlon finish times are accurate for all racers.

I appreciate your patience!

If anyone finds a issue with these results, please email me with your concern.

Ernie Page
Timer Guy
